(A DEVELOPMENT STAGE COMPANY)
NOTES TO CONDENSED FINANCIAL STATEMENTS
AS OF MARCH 31, 2011
(UNAUDITED)

NOTE 1 **SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES AND ORGANIZATION**

(A) Basis of Presentation

The accompanying unaudited condensed financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and the rules and regulations of the Securities and Exchange Commission for interim financial information. Accordingly, they do not include all the information necessary for a comprehensive presentation of financial position and results of operations.

It is management's opinion however, that all material adjustments (consisting of normal recurring adjustments) have been made, which are necessary for a fair financial statements presentation. The results for the interim period are not necessarily indicative of the results to be expected for the year.

(B) Use of Estimates

In preparing financial statements in conformity with generally accepted accounting principles, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reported period. Actual results could differ from those estimates.

(C) Cash and Cash Equivalents

The Company considers all highly liquid temporary cash investments with an original maturity of three months or less to be cash equivalents. At March 31, 2011 and June 30, 2010, the Company had no cash equivalents.

(D) Loss Per Share

Basic and diluted net loss per common share is computed based upon the weighted average common shares outstanding as defined by FASB ASC No. 260, "Earnings Per Share." As of March 31, 2011 and 2010 there were no common share equivalents outstanding.

(E) Intangible Assets

In accordance with Statement FASB Accounting Standards Codification No. 350, *Intangibles, Goodwill and Other*, it is required that intangible assets with a finite life are amortized over its life and it requires that goodwill and intangible assets be reviewed for impairment annually or more frequently if impairment indicators arise.

(F) Income Taxes

The Company accounts for income taxes under FASB Codification Topic 740-10-25 ("ASC 740-10-25"). Under ASC 740-10-25, deferred tax assets and liabilities are recognized for the future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. Under ASC 740-10-25, the effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that includes the enactment date.

(G) Business Segments

The Company operates in one segment and therefore segment information is not presented.

(H) Revenue Recognition

The Company will recognize revenue on arrangements in accordance with FASB ASC No. 605, "Revenue Recognition". In all cases, revenue is recognized only when the price is fixed and determinable, persuasive evidence of an arrangement exists, the service is performed and collectability of the resulting receivable is reasonably assured. The Company recognizes rental revenue in accordance with FASB ASC No. 840-25. FASB ASC No. 840-25 requires that rental revenue be recognized on a straight line basis over the term of the lease for operating leases.

NOTE 4 **COMMITMENTS**

On February 16, 2010, the Company entered into a consulting agreement to receive administrative and other miscellaneous services. The Company is required to pay \$5,000 a month. The agreement is to remain in effect unless either party desired to cancel the agreement.

The amount has been classified as an asset and is being amortized over the life of the license.

NOTE 7 **GOING CONCERN**

As reflected in the accompanying unaudited condensed financial statements, the Company is in the development stage with minimal operations, used cash in operations of \$109,220 from inception and has a net loss since inception of \$116,307. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company’s ability to raise additional capital and implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Management believes that actions presently being taken to obtain additional funding and implement its strategic plans provide the opportunity for the Company to continue as a going concern.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto contained elsewhere in this Report. The following discussion and analysis contains forward-looking statements, which involve risks and uncertainties. Our actual results may differ significantly from the results, expectations and plans discussed in these forward-looking statements.

The following plan of operation provides information which management believes is relevant to an assessment and understanding of our results of operations and financial condition. The discussion should be read along with our financial statements and notes thereto. This section includes a number of forward-looking statements that reflect our current views with respect to future events and financial performance. Forward-looking statements are often identified by words like believe, expect, estimate, anticipate, intend, project and similar expressions, or words which, by their nature, refer to future events. You should not place undue certainty on these forward-looking statements. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from our predictions.

Plan of Operations

Our Company was established in December 2009 to provide renovation and management services to larger real estate developers and hedge funds that own and are acquiring additional vacation rental properties in North and South Carolina at below-market prices. We will provide property management services ranging from completing necessary renovation work to marketing and renting the properties on a seasonal basis at a profit.

Our executives are approaching prospective clients who have or are acquiring foreclosed or distressed vacation properties in North and South Carolina. Our executives are currently marketing the Company's services through direct contact with prospective clients and therefore we do not plan to incur any expense for this effort in the next 12 months. When we have completed renovation on the first few homes, we expect to spend \$500-\$2,500 a month to market these properties and will have a larger marketing-related expense in late 2011 when we ready our website and printed materials to promote the rental properties for the 2012 high season. We plan to sign contracts to provide renovation and management services with two real estate developers and one hedge fund during our first 12 months after this registration statement is declared effective. We have not yet identified the real estate developers or the hedge fund.

Our goal was to have three vacation homes under management and available for rent during the summer 2011 high season, May to August. At this time we do not believe we will have vacation homes under management until August 2011. Our estimate for costs associated with each home that comes under our management includes approximately \$7,500-\$12,000 in renovation fees. We plan to add another 10 to 12 homes under management for the summer 2012 high season.

Additionally, the Company will attempt to obtain green energy solutions for use in its managed properties. Solutions we are considering include LED lighting, solar power and solar heating. We may also look to resell these solutions to other property management firms or vacation home owners. Our plan is to sign at least one reseller agreement with a manufacturer of LED lighting systems for interior and exterior residential lighting applications in the first six months of operation after this registration statement declared effective. We plan to implement LED lighting in each home that comes under our management.

The Company currently has a licensing agreement with Madison Energy Group that allows us to sell Frigitek products. The company believes that the commercial/industrial-level green solutions such as geothermal and Frigitek (fan speed controls for cooling condensers) have the potential to be repositioned or re-engineered for residential applications. We have not yet sold any Frigitek units and plan on taking delivery of the first units in July 2011.

If it becomes necessary to raise additional capital, we may conduct another private placement with the intention of selling stock. As a part of this private placement we may approach property management clients which we may have at that time to participate. Currently, we have no definitive plans to conduct another private placement of common stock. At the same time, we will continue to pursue green energy solutions with Madison Energy Group.

Limited Operating History

As reflected in the accompanying financial statements, the Company is in the development stage with minimal operations, used cash in operations of \$109,220 from inception and has a net loss since inception of \$116,307. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and implement its business plan.

We have not previously demonstrated that we will be able to expand our business. We cannot guarantee that the expansion efforts described in this prospectus will be successful. Our business is subject to risks inherent in growing an enterprise, including limited capital resources and possible rejection of our renovation services offering.

If the proceeds of our private placement prove to be insufficient to generate additional profits, future financing may not be available to us on acceptable terms. If financing is not available on satisfactory terms, we may be unable to continue expanding our operations. Equity financing will result in a dilution to existing shareholders.

For the Three Months Ended March 31, 2011

For the three months ended March 31, 2011, we had \$0 in revenue. Expenses for the three month period totaled \$22,836 resulting in a net loss of \$22,836. Expenses for the three months ended March 31, 2011 consisted of \$18,130 in professional fees and \$4,706 for general and administrative expenses.

For the Nine Months Ended March 31, 2011

For the nine months ended March 31, 2011, we had \$0 in revenue. Expenses for the nine month period totaled \$78,382 resulting in a net loss of \$78,382. Expenses for the nine months ended March 31, 2011 consisted of \$67,555 in professional fees and \$10,827 for general and administrative expenses.

Capital Resources and Liquidity

We raised cash to grow our business through a private placement that was completed on June 8, 2010. We have sufficient capital to continue operations for approximately the next five months. We anticipate receiving some revenue from the partnership with Madison Energy in 2011. We will seek to enter into agreements to provide our renovation and management service. We do not at this time anticipate seeking further equity investment. If we need additional cash and are unable to raise it, we will either have to suspend or cease our expansion plans entirely. Other than as described in this registration statement, we have no other financing plans.

We issued 5,000,000 Shares of common stock to Deborah Lovig pursuant to the exemption from registration set forth in section 4(2) of the Securities Act of 1933. Ms. Lovig, the founder of the Company, was issued 5,000,000 shares in exchange for \$100 in cash and \$400 worth of services, which she provided to the Company.

We anticipate that depending on market conditions and our plan of operations, we may incur operating losses in the foreseeable future. Therefore, our auditors have raised substantial doubt about our ability to continue as a going concern.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

Not applicable to smaller reporting companies

Item 4. Controls and Procedures

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures as defined in Rules 13a-15(e) and 15d-15(e) of the Exchange Act that are designed to ensure that information required to be disclosed in our reports filed or submitted to the SEC under the Exchange Act is recorded, processed, summarized and reported within the time periods specified by the SEC's rules and forms, and that information is accumulated and communicated to management, including the principal executive and financial officer as appropriate, to allow timely decisions regarding required disclosures. Our principal executive officer and principal financial officer evaluated the effectiveness of disclosure controls and procedures as of March 31, 2011, pursuant to Rule 13a-15(b) under the Exchange Act. Based on that evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered by this report, the Company's disclosure controls and procedures were effective to ensure that information required to be included in our periodic SEC filings is recorded, processed, summarized, and reported within the time periods specified in the SEC rules and forms.

A system of controls, no matter how well designed and operated, cannot provide absolute assurance that the objectives of the system of controls are met, and no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within a company have been detected.

Changes in Internal Control over Financial Reporting

No changes were made to our internal control over financial reporting during our most recently completed fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
