Recent Company Highlights Include:

- Commercially released the **exVive3D™ Human Liver Tissue** for preclinical drug discovery testing
- The **exVive3D™ Human Liver Tissue** was recognized as a **Top 10 Innovation of 2014** by **The Scientist Magazine**
- Organovo was named **2015 Technology Pioneer by the World Economic Forum** for the ability to harness creativity to design and create transformative solutions
- **Key opinion leader** reported Organovo's 3D Human Liver Tissue was able to establish the toxicity of toxic drug known to induce liver injury in humans that did not show toxicity in animal and other pre-clinical testing, an achievement historically unmet by animal models or other liver cell model systems
- Initiated contracting for toxicity testing using its 3D Human Liver Tissue, for selected clients, in advance of its scheduled commercial release
- Entered into additional agreements to utilize 3D bio-printed tissue in drug discovery settings
- Reported that its 3D bio-printed tissues enabled researchers to make compartment-specific assessments (i.e., epithelium, stroma, vasculature) of drug response — something that is not currently possible outside of in vivo models to date
- Announced an agreement with the University of Queensland directed toward development of source cell lines for 3D kidney tissue bioprinting activities
- Appointed Gregory T. Lucier, former Chairman and CEO of Life Technologies, as a corporate advisor

About Organovo Holdings, Inc.
